Response to Amendment

1. The reply filed on 07/30/2007 is not fully responsive to the prior Office Action dated 06/29/2007 because of the following omission(s) or matter(s): Applicant argues that the restriction requires “do not overlap” or “mutually exclusive” inventions. No such requirement exists. The actual restriction is based on the ability for the inventions to be used as stated in the prior Office Action.
2. “The invention are distinct, each form the other because of the following reasons:
 - a. Invention I, II, III and IV are related as subcombination disclosed as useable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate function such as configuring a web service system, invention II has separate function such as developing and generating a web service frame work, invention III has separate function such as identifying, translating, categorizing, organizing and modifying a web service architecture implementation, and invention IV has separate function such identifying, defining, determining and implementing security domain, policy, strategy, profile and scheme. See MPEP § 806.05(d).”

See 37 CFR 1.111, Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS of THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
